## **High Style and Low Maintenance**

Our deluxe vinyl gazebos are built with a wood structure that is made of pressure-treated lumber and then covered with vinyl. Composite decking is used for the flooring. The ceilings have a vinyl soffit covering. We settle for nothing less than a top-quality, maintenance-free gazebo that is both elegant and durable. Neither should you.

# *quality & craftsmanship*

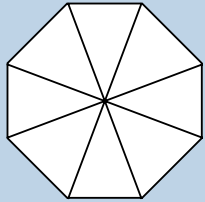

It's pretty simple. We won't compromise. Not in materials. Not in workmanship. Every gazebo is made by hand, one at a time, by dedicated, experienced builders who don't take shortcuts. When artisans do their jobs that way, it shows in the final product. Come and see for yourself what passionate master craftsmen can accomplish. And prepare to be amazed.
